

Corporate Fund

The Corporate Fund is DuPage County's chief operating fund. It is the primary funding source for elected officials and County support functions, covering basic governmental activities such as public safety, legal and judicial operations, community and human services, county administration, property assessment and tax collections. Approximately 64% of County staff is Corporate funded.

The fund is made up of general, undesignated revenue streams such as sales tax, income tax, the Corporate Fund portion of the property tax levy and certain fees, fines, charges and reimbursements. These revenues do not have specific purposes attached to their use.
