SUBJECT: Extension of the DuPage County General Permit in DuPage County, Illinois

DuPage County
Dept. of Economic Development and Planning
Attention: Thomas Cuculich
421 N. County Farm Rd.
Wheaton, Illinois 60187

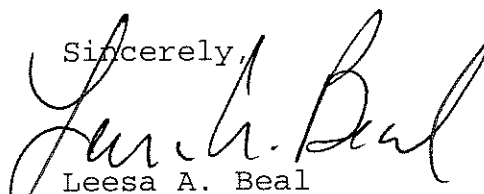

Dear Mr. Cuculich:

This is in reference to extend the expiration date of the DuPage County General Permit authorization granted on September 29, 2000.

The Chicago District has determined that a time extension of the original permit authorization would not be contrary to the general public interest. Accordingly, the subject general permit is hereby specifically modified to extend the expiration date to December 31, 2006. All terms and conditions of the original permit to which the authorization was made subject to shall remain in full force and effect. This letter shall be made part of the original authorization, and our administrative record.

It is your responsibility to update any required state or local approvals for this time extension, if required. Be informed that if it becomes necessary to request future time extensions of the authorized project, this office reserves the right to re-evaluate the project pursuant to new regulations or District policy. If you have any questions, please contact the undersigned by telephone at (312) 846-5540.

Sincerely,

Leesa A. Beal
Chief, East Section
Regulatory Branch
