Project Number: NA

Preserve Name: Warrenville Grove

Township/Range/Section: 39N, 9E, 35

U.S.G.S. Quad Map Name(s):

General Project Description:

Partial removal of Warrenville Grove Dam for river and floodplain restoration activities.

Requested By: John Oldenburg

Department: Natural Resources

Director/Supervisor: Bob Vick

Work Order Number: NA

REVIEW RESULTS

- 1) Are there endangered or threatened species present or is there an Illinois Natural Areas Inventory site located within the vicinity of the proposed project? (**YES**) (NO) If the answer is yes, list species and/or INAI site below.

Black Crowned Night heron (*Nycticorax nycticorax*). Last known record was 2003, with no recent breeding documentation. This species is known throughout the entire West Branch of the DuPage River where sufficient alternative habitat is readily available. Therefore, this species will not likely to be disturbed from the dam removal project.
