REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

To the Honorable Chairman and Members of the County Board
DuPage County, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of DuPage County, Illinois as of and for the year ended November 30, 2019, and the related notes to the financial statements, which collectively comprise DuPage County's basic financial statements, and have issued our report thereon dated June 17, 2020. Our report includes a reference to other auditors who audited the financial statements of the DuPage Airport Authority, a discretely presented component unit, as described in our report on DuPage County's financial statements. The financial statements of the DuPage Airport Authority and the Water and Sewerage System Fund were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the DuPage Airport Authority or the Water and Sewerage System Fund.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2019-001 and 2019-002 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL
OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITORS' REPORT

To the Honorable Chairman and Members of the County Board
DuPage County, Illinois

Report on Compliance for Each Major Federal Program

We have audited DuPage County's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended November 30, 2019. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

DuPage County's basic financial statements include the operations of the DuPage County Health Department, which expended \$10,675,459 in federal awards which is not included in DuPage County's schedule of expenditures of federal awards during the year ended November 30, 2019. Our audit, described below, did not include the operations of the DuPage County Health Department because a separate audit was performed in accordance with the Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended November 30, 2019.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of DuPage County, Illinois as of and for the year ended November 30, 2019, and the related notes to the financial statements, which collectively comprise DuPage County's basic financial statements. We issued our report thereon dated June 17, 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. Our report includes a reference to other auditors who audited the financial statements of the DuPage Airport Authority, a discretely presented component unit, as described in our report on DuPage County's financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

DUPAGE COUNTY, ILLINOIS

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended November 30, 2019

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “schedule”) includes the federal award activity of DuPage County, Illinois under programs of the federal government for the year ended November 30, 2019. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of DuPage County, Illinois, it is not intended to and does not present the financial position, changes in net position or cash flows of DuPage County, Illinois.

The reporting entity for DuPage County is based upon criteria established by the Governmental Accounting Standards Board. DuPage County is the primary government according to GASB criteria, while the DuPage County Airport Authority (Airport Authority) is a discretely presented component unit and the DuPage County Health Department (Health Department) is a blended component unit. The Airport Authority is not required to be audited according to the Uniform Guidance. Federal awards received directly by the Health Department are not included in this report since the amounts are reported in a separate report.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

The underlying accounting records for some grant programs are maintained on the modified accrual basis of accounting. Under the modified accrual basis, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the liability is incurred. The accounting records for other grant programs are maintained on the accrual basis, i.e., when the revenue has been earned and the liability is incurred.

NOTE 3 – INDIRECT COST RATE

DuPage County has not elected to use the 10% de minimis indirect cost rate.

DUPAGE COUNTY, ILLINOIS

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended November 30, 2019

SECTION I – SUMMARY OF AUDITORS’ RESULTS

FINANCIAL STATEMENTS

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: **Unmodified**

Internal control over financial reporting:

- > Material weakness (es) identified? yes X no
- > Significant deficiency (ies) identified? X yes none reported

Noncompliance material to financial statements noted? yes X no

FEDERAL AWARDS

Internal control over major programs:

- > Material weakness (es) identified? yes X no
- > Significant deficiency (ies) identified? yes X none reported

Type of auditor’s report issued on compliance for major programs: **Unmodified**

Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a) of the Uniform Guidance? yes X no

Auditee qualified as low-risk auditee? yes X no

Identification of major federal programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
14.218	Community Development Block Grants/Entitlement Grants Cluster
14.269	Community Development Block Grant – Disaster Recovery Grants Pub. L. No. 113-2 Cluster
93.569	Community Services Block Grant
93.568	Low Income Home Energy Assistance Program

Dollar threshold used to distinguish between type A and type B programs: \$770,088

DUPAGE COUNTY, ILLINOIS

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended November 30, 2019

SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Finding 2019-001: County Board - Finance – Non-Treasurer Held Bank Accounts

Criteria: A properly and effectively designed system of internal control should encompass all operational activity of the County. This includes decentralized transactional activity and bank accounts maintained by the various departments and offices of the County other than the County Treasurer.

Condition: We noted that several departments and offices utilize bank accounts that are not reported in the County's general ledger software throughout the year. In both the current year and prior year, the Finance Department provided the appropriate entries and audit entries were not necessary. These "off-book" accounts consisted of governmental fund accounts and agency accounts in which the County held fiduciary responsibility for monies required to be distributed to other entities.

Cause: While some departments and offices maintain their own systems of internal controls, the maintenance of accounts outside the County's internal control procedures ensures that the accounts and related activity do not go through the County's centralized review and approval procedures. Specifically, the County's multi-office monthly review of bank reconciliations, and review and approval process over disbursements.

Effect: By operating outside the auspices of the County's primary system of internal controls, there is a risk that the County's financial statements would exclude transactional activity and existing bank account balances without the knowledge of management or the County Board. Additionally, errors or fraud could occur in these accounts without being discovered that would have otherwise been identified within the primary control procedures.

Recommendations for Corrective Action: We recommend that all bank accounts opened in the name of the County or department/office of the County be maintained and operated through the County's general ledger software. Transactions related to these accounts should also be recorded in the general ledger on a timely basis. If it is not feasible for transactional activity to be processed through the County's primary control procedures, each department and office maintaining "off-book" accounts should document and implement internal control procedures to ensure that bank reconciliations are prepared on a monthly basis and reviewed by someone other than the preparer and disbursements from the accounts be reviewed and approved before the transaction takes place.

Management's Response: County management concurs with Baker Tilly's recommendation with respect to the Non-Treasurer Held Bank Accounts, and continues to strongly encourage all departments that have separate bank accounts to bring these accounts "on-line" so that all related transactions are processed on a timely basis via the County's general ledger system, and that all related transactions are required to follow the County's internal control procedures. Due to the nature of some of these bank accounts, County management understands that some of these accounts may not be brought "on-line".

As mentioned above, County management continues to strongly encourage all departments that maintain Non-Treasurer Held Bank Accounts to adhere to the following internal control procedures:

- a. Prepare monthly bank reconciliations on a timely basis.
- b. Have an independent party review and sign off the monthly bank reconciliations and disbursements.

DUPAGE COUNTY, ILLINOIS

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended November 30, 2019

SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONT.)

Finding 2019-001: County Board - Finance – Non-Treasurer Held Bank Accounts (cont.)

Management’s Response (cont.): While we recognize that elected officials are not required to comply with the above internal control procedures, County management encourages them to do so, in order to achieve the highest standard in internal control. The Finance Department also continues to work closely with the County Treasurer advocating the bringing of all Non-Treasurer Held Bank Accounts “on-line”.

In preparation for implementation of GASB Statement No. 84, “Fiduciary Activities” (Statement), which is effective FY 2021, the Finance Department has completed its assessment as to whether an agency fund currently being held by the County is, in fact, an agency fund, in accordance with the guidelines established by the Statement. Based on our assessments, the transactions for some of these agency funds will need to be processed via the County’s general ledger system when the County implements the new Standard.

Finding 2019-002: County Board – Care Center – Patient Billing

Criteria: The Care Center receives delayed information regarding when patients are admitted into Medicare and could receive information after the County’s financial statements have been issued. As such, it is necessary for the Care Center to prepare retroactive billings once information regarding Medicare patients is received.

Condition: The Care Center is behind in preparing the retroactive billings to detect misstatements in a timely manner.

Cause: Due to the lack of employees trained, the completion of retroactive billings and review of patient accounts is not timely.

Effect: Before patients are admitted into Medicaid they are billed as private pay residents which is at a higher rate than Medicare patients. When reimbursements are received from Medicaid, the Medicaid receivable account is reduced for the payment. If the payment is received prior to the retroactive billing adjustment, the bill is still included in the Private Pay receivable account. At year end, this resulted in the Medicaid receivable account having a negative balance offset by a Private Pay receivable balance that was overstated.

Recommendations for Corrective Action: We recommend a more timely performance of the retroactive billings to ensure receivable balances by payor are properly stated.

DUPAGE COUNTY, ILLINOIS

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended November 30, 2019

SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONT.)

Finding 2019-002: County Board – Care Center – Patient Billing (cont.)

Management's Response:

Prior Process for Retroactive Billing

A majority of DPCC's patient population is either funded through the State's Medicaid program or has applied for acceptance into the program. The State has been grossly delinquent in approving residents for Medicaid (even after they are eligible thru the Spend down process), during which time the resident remains as private pay status for billing purposes. Once notification of Medicaid approval is received, the private pay charges put into the billing software during the pending period, must be analyzed and re-established under the Medicaid payor source at the appropriate rates. Medicaid rates are adjusted quarterly and sometimes monthly and take into account such things as patient income and income offsets. The analysis and reclassification of billing requires a thorough understanding of the Medicaid process and is time consuming especially when approval can take up to a year. As a result, DPCC financial department reevaluated the current method of analysis and reclassification and put in new processes to reduce the number and complexity of retroactive billings moving forward.

New Process for Retroactive Billing effective 12/01/2018

Upon completion of financial screening and application for Medicaid benefits, the resident will be classified as Medicaid in DPCC billing software resulting in

- Medicaid revenue to be booked at the Medicaid rate versus Private Pay rate.
- Increased frequency of Medicaid receivable review also allows the Care Center's receivable classification to reflect the ultimate payor source and decreases the number of accounts that require review/analysis of retroactive classification changes.
- DPCC Financial services staff has reviewed and analyzed approximately 25%-30% of the existing Retroactive Medicaid Billings and made the appropriate adjustments.

New Changes-State of Illinois Medicaid Eligibility Program

During FY 2018, the State of Illinois established a provisional eligibility program for all residents applying for Medicaid benefits.

- The intent of the Provisional Eligibility program is to pay facilities the Medicaid rate for residents who are in the Medicaid review process. At this time, we have not yet received payment under this program.
- A quicker change in the classification of the resident payor source, allows us to bill in a timely manner and reduces the number and complexity of accounts needing retroactive analysis.

DUPAGE COUNTY, ILLINOIS

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Year Ended November 30, 2019

SECTION II – FINANCIAL STATEMENT FINDINGS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONT.)

Finding 2019-002: County Board – Care Center – Patient Billing (cont.)

Management's Response (cont.):

Status of Retroactive Billing review – Fiscal Year 2019

As noted in the response by Care Center management in Fiscal Year 2018, new residents of the Care Center who apply for Medicaid continue to be classified as a Medicaid resident in the Care Center's billing system. This classification process has eliminated the need for new retroactive billing.

As of November 30, 2019, Care Center personnel have reviewed and reclassified approximately 60% of those residents who needed to be reviewed. The remaining 40% of resident reviews and reclassifications are expected to be completed during Fiscal Year 2020.

Also, as noted in the response by Care Center management in Fiscal Year 2018, the Care Center is receiving provisional eligibility for those residents who apply for Medicaid benefits, and for those residents who are currently being reviewed. The provisional eligibility has reduced the complexity of those accounts that need to be analyzed.
