Re: Highland Hills Sanitary District  
Resident Survey Update

Dear Resident:

The Highland Hills Sanitary District and DuPage County Public Works Department wanted to provide an update of the service option survey that is underway for the Highland Hills customers over the past month. As you may recall, the customers were considering the following two service options for their water and/or sewer providers:

**Option 1** – Maintain Highland Hills Sanitary District as the water and sewer collection provider

**Option 2** – DuPage County would provide Lake Michigan water service and Flagg Creek Sanitary District would provide all sewer collection and treatment services.

Information pertaining to these two options was presented to the residents at the meeting held on November 15<sup>th</sup>, including detailed financial information comparing both of these options. In addition, a copy of the Highland Hills Assessment Report, as well as a copy of the full presentation, can be found on the DuPage County and Highland Hills websites.

DuPage County website: [http://www.dupageco.org/Public\\_Works/24579](http://www.dupageco.org/Public_Works/24579)

Highland Hills Sanitary District website: <http://www.hhsdlombard.org/home.html>

To date, the results of the survey are as follows:

**Option 1** (Highland Hills) – 38 votes

**Option 2** (DuPage County/Flagg Creek) – 211 votes

Although the results of the survey to date are very much in favor of Option 2, it would be our goal to hear from as many of the Highland Hills customers/property owners as possible as part of this initial survey process. We will be mailing out a separate reminder notice to any customers or property owners that have not yet submitted a survey. Upon completion of this process, we will then send an update letter to the Highland Hills customers regarding the final survey results and anticipated next steps.

Please feel free to contact us at (630) 407-6800 if you have questions regarding this information.

Respectfully,
