County Auditor  

Subject:   Internal Audit of Accounts Payable  
#17-114  

Date:      December 1, 2017  

The Office of the County Auditor has completed a limited scope internal audit of the  
transaction processing of ETSB invoices submitted for payment. The audit identified no  
invoices that required additional information or correction by the department.  

Results  
My Office has performed voucher pre-audit procedures for the invoices submitted  
for approval by the ETSB at the December 12, 2017 Board Meeting. The invoices listed on the Bank Account Payment History Report dated December 1, 2017 have been examined by the Office of the DuPage County Auditor and are  
recommended for payment:  

- FY2017 Wireline Fund (4000-5800) $1,775.39  
- FY2017 Wireless Fund (4000-5810) $150,467.12  
- FY2017 Equalization Fund (4000-5820) $77,670.49  

Audit procedures identified no invoices that required additional information or  
correction.  

Objective  
The County Auditor will perform a series of procedures designed to evaluate the  
internal controls involved in the processing of transactions in the Enterprise  
Resource Planning (ERP) system and the MHC Image Express (MHC) system.
The actual procedures performed will depend upon the County Auditor’s assessment of risks associated with the transactions.

**Background/Audit Scope**

Invoices and the related supporting documentation are initially prepared and submitted for payment processing by County departments to the centralized accounts payable function administered by the Finance Department. The implementation of the ERP system has resulted in significant changes to the processing and reporting of transactions compared to the accounting systems formerly used by the County. One of the many benefits of the ERP system is the ability to reduce duplicate payments to vendors by requiring unique vendor invoice numbers.

The County Auditor performs audit procedures on the payment documentation after the information has been entered into the ERP system by the Finance Department’s Accounts Payable staff. These procedures include reviewing the submitted documentation and comparing it to the information entered into the ERP system. Significant discrepancies noted between the supporting documentation and the information recorded in the ERP system are identified by County Auditor staff as exceptions. In these situations, the invoice recorded in the ERP system is transferred by the County Auditor to a non-processing batch until the exception is resolved. The hard-copy invoice and supporting documentation are returned to the Finance Department with an exception notice.

The County Auditor also performs audit procedures on the payment documentation after the information has been entered into the MHC system. These procedures include reviewing the scanned images of the invoice and supporting documentation and comparing it to the information entered into the MHC system. As is the case with transactions entered into the ERP system, significant discrepancies noted between the supporting documentation and the information recorded in the MHC system are identified by County Auditor staff as exceptions. In these situations, the invoice image scanned in the MHC system is disapproved by the County Auditor and forwarded to the Accounts Payable Division of the Finance Department for correction.

Additionally, after the Bank Account Payment History Report has been generated by the Accounts Payable Division of the Finance Department, the County Auditor verifies that each of the recommended payments was properly posted to the County’s General Ledger.

During the claims pre-audit process, the County Auditor reviewed 48 invoices scanned into the MHC system. No exceptions were noted.
Recommendations

No recommendations are being made to ETSB or the Finance Department for improvement of the process for payment of ETSB invoices at this time.

Thank you for your continued assistance.
