Subject: DuPage Social Service Association Account Reconciliation, August 2018
#18-85

Date: September 25, 2018

The Office of the County Auditor completed an audit of the DuPage Social Service Association (DSSA) bank account. Audit procedures were performed to review the internal controls and independently recreate the reconciliation performed by the Finance Department for the bank statement as of August 31, 2018.

Results

Audit procedures determined that the reconciliation was performed by a Finance Department staff member who does not have disbursement or deposit responsibilities with respect to this account. The reconciliation was acknowledged by initials and date of the staff member performing the reconciliation and the employee who reviewed the reconciliation. The book balance of the account is \$95,224.74.

A deposit from the United Way payroll deduction was not received in June.

An exception was identified whereby a check (no. 1015) issued by DSSA and payable to Little Caesars has been outstanding for more than nine months. The check is dated November 28, 2017.

The petty cash has not been replenished from a cash disbursement of \$20 occurring in May, 2018.

Objective

The County Auditor will perform a series of audit procedures designed to evaluate the internal controls over certain bank accounts outside the control of the County Treasurer. A review was performed to determine if the reconciliation of the DSSA account was timely and accurately performed.

Background / Audit Scope

The DuPage Social Service Association maintains a non-interest bearing checking account at the DuPage County Employees Credit Union to make payments for social programs in situations when grant funds are not available. These payments do not require County Board approval and are not audited by the County Auditor prior to disbursement. Deposits are made from DuPage County employees' United Way combined campaign donations and other donations. In accordance with the Credit Union's requirements, a nominal balance of \$5.00 is maintained in an interest-bearing savings account established at the Credit Union. There has been no activity in this latter account.

This limited scope internal audit was designed to test if the bank reconciliation was performed on a timely basis and reviewed by an individual independent of deposit and disbursement activities. Procedures included verifying that disbursements were reasonable and deposits were made on a timely basis.

The procedures performed by the County Auditor were not designed, nor are intended, to provide a thorough assessment of the internal control risks associated with the processing of transactions in the DSSA account.

Audit Findings and Recommendations

It was noted that a deposit from the United Way payroll deduction was not received for June 2018, but a deposit was received the following two months, July and August. It is recommended that the Finance Department contact United Way for an explanation of why no funds were received in June.

It was noted that DSSA issued a check (no. 1015) to Little Caesars in the amount of \$75.00 on November 28, 2017. As of August 31, 2018, the check remains outstanding. Discussion with Finance personnel indicated that they have tried repeatedly to contact Little Caesars regarding the check, but there has been no response. Finance plans to contact the Credit Union and request that a stop payment order be placed on the check.

The DSSA maintains a small petty cash fund of approximately \$100 to accommodate small transactions. In May 2018, a disbursement of \$20 was made from the fund for basic needs - transportation. In order to function properly, a petty cash fund should be replenished to its nominal amount after disbursements occur. It was noted that this did not occur during June or July. It is suggested that DSSA establish a process to replenish the petty cash fund on a monthly basis, if necessary, to ensure that there are sufficient funds available.

A prior audit recommendation suggesting that some of the funds be moved to an interest-bearing account was acknowledged and will be brought forth at an upcoming DSSA Board meeting.
